

# PURCHASE CHILDREN'S CENTER ENRICHMENT AND COMPUTER PROGRAMS

2009 - 2010

Session III (March 1<sup>st</sup> – May 3<sup>rd</sup>)

Programs for children ages 3, 4, and 5

**Sports Skills** – Brian Bush (Coach at Manhattanville College) will present your child with open ended activities that will help him/her gain an understanding of basic skills needed for the different sports (i.e. Basketball- dribbling, shooting, passing. Soccer- kicking, passing. Baseball – hitting, catching throwing and more).

**Cooking With Class Lil' Cooks** - Cooking With Class features the art of cooking intertwined with math, science, language arts, and more. This program is developmentally appropriate for children in preschool and includes unique cooking themes, stories, craft activities, and lots of fun!

**Science = Fun** - This eight week comprehensive class will expose children to all aspects of science processing skills. Each child will learn to approach situations using scientific methods. Observation, classification, measurement, prediction, and communication will be explored using paint, ooey-goey liquids, colorful solids, and fun project oriented experiments. At the end of the eight weeks, each child will also complete his/her own science notebook to take home.

**Bugs Don't Bug Us-Art** – This class will offer your child an experience to create different types of insects using an assortment of art media.

**Math & Manipulatives:** Children will explore, organize and manipulate materials as well as communicate mathematical thinking with the instructor. Skills will include number concepts, patterns and relationships, geometry and spatial sense, measurement and data collection, organization and representation.

**One-on-One Computer Fun** – One-on-One Computer Fun will introduce your child to computer technology, teach them how to operate a computer independently, and explore a variety of educational software. Our weekly classes offer many opportunities for successful learning and enrichment activities. Regardless of prior computer experience, each child will work at their level to reinforce early childhood skills.
